Experience

- **Intuit (via Cognizant)** *Nov. 2025 - Jul. 2026*
  UX/UI Designer, MSE Bengaluru, India

  – Streamlined end-to-end B2B purchase and subscription flows for enterprise clients across 4 product lines (Mailchimp, QuickBooks, QBO and IES), by designing cart, billing and pricing journeys within the Monetization and Subscriptions Experience (MSE) team.
  – Contributed as a UX Designer for the Mailchimp Sales Enablement flow for NTTF customers, solving the "Split Ecosystem" to support a 38% growth trajectory and target $4M in new MRR through sales agent channels.
  – Launched Net Terms for Intuit Enterprise Suite, bringing invoice billing on approved credit terms to a shared payment widget used across 11 Intuit products and flows, by designing its application, credit-decision and billing states with PM, Dev and Legal.
  – Accelerated stakeholder demos and code-to-dev handoffs with 7+ clickable coded prototypes, by translating Figma designs into code-ready components using Claude AI and maintaining a master GitHub repository.
  – Documented the Commerce Widget Library design system with 3 cross-functional partners (PM, Dev and Legal), by integrating Design for Delight (D4D) methodologies and user research to ensure customer-centric solutions.

- **Cognizant** *Aug. 2025 - Present*
  Associate UX Designer Bengaluru, India

  – Completed specialized Human-Centered Design (HCD) training, focusing on collaboration and cross-functional enterprise workflows.
  – Pitched AI-driven solutions for 4 industries (healthcare, retail, agro-tech and energy), by crafting concept posters and pitch decks for industry-specific projects.

- **Research Assistant, IIT Guwahati** *July 2023 - June 2025*
  Under Dr.Abhishek Shrivastava & Dr.Keyur Sorathia IITG Campus

  – Supported 2 research projects (Medical VR Training Tool and Underwater ROV), by leading data collection, remaking VR-Ideation sheets in Figma and creating concept illustrations.

- **Freelancing** *Jul. 2022 - Sep. 2024*
  Architect & Designer Remote

  – Delivered residential and commercial freelance projects end to end, by handling architecture, exterior & interior design, and spatial planning from client brief to final drawings.

Projects

- **Net Terms for Intuit Enterprise Suite** *Jan. 2026*
  Intuit, Payments UX, B2B Billing

  – Launched invoice billing on approved credit terms (Net 30/60/90) for enterprise customers across 3 surfaces (QuickBooks Accountant, QBO/IES and Partner Portal), by designing 5 payment-widget states, declined and error fallbacks, billing history, invoices and credit-limit alerts at 80/95/100%.

- **Mailchimp Sales Enablement** *Mar. 2026*
  Intuit, B2B Purchase Flow

  – Enabled Intuit sales agents to sell 3 Mailchimp products (Email, SMS and Transactional Email) to NTTF customers, by designing add, modify, purchase and blocker flows, and resolving a two-timeline cart (SMS is charged only after approval) with one cart and an approval section that supports 7 status types and future products.

- **QuickBooks Payments & Bill Pay Rate Tables** *Jul. 2026*
  Intuit, Pricing UX

– Standardized fee transparency for QuickBooks Payments and Bill Pay across transaction types, network fees and network types, cutting the rate table's length by about 50%, by iterating 5 versions inside a fixed 752 px modal and handing off a coded prototype built with Claude AI.

- **QBO Construction Vertical Add-on** *2026*
  Intuit, Subscriptions

  – Delivered 5 clickable coded prototypes for the Construction add-on, covering 3 pricing models (ProAdvisor discount, direct discount and revenue share) and billing migrations, by designing end-to-end subscription flows for Accountant and self-serve channels and building them with Claude AI.

- **Other Intuit Enterprise Features** *2026*
  Intuit, B2B SaaS

  – Guided users through feature loss gracefully during IES downgrades, by designing QBO Sign-Up blockers that explain what changes before they commit.
  – Helped high-value clients troubleshoot parent-child entity billing discrepancies securely, by designing and building custom hierarchical payment method downloads with Claude AI.

- **Sahai : Together in care, AI-Assisted conversational UX for a cancer caregiver app** *Aug. 2024*
  AI, Conversational UX/UI

  – Enabled cancer caregivers to track care tasks and get support through a conversational chatbot, by designing an AI-assisted conversational UX grounded in user interviews and competitive analysis.

Skills

- **Design**: Enterprise UX, SaaS Design, AI-Integrated Workflows, Rapid Prototyping, Code-to-Dev Handoffs, Design Systems, Design for Delight (D4D), B2B Flows, Information Architecture, Wire-framing, Concept Design, Visual Design, Usability Testing.
- **Research**: User Interviews, Contextual Enquiry, Field Observations, Surveys, Competitive Analysis, User Flows, Participatory Design, Secondary Research, Data Visualization.
- **Programming Languages**: Python, Javascript, HTML
- **Tools**: Figma, Claude AI, GitHub, Storybook, Webflow, Photoshop, Illustrator, InDesign, Miro, Framer, Procreate, Notion, Sketchup, Blender, Tableau

Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
M.Des	Indian Institute of Technology, Guwahati	7.86	2023-2025
B.Arch	School of Architecture, Christ University	7.06	2022

Achievements

- **Best Paper Presentation Award** *2024*
  ADOBE Conference, Woxen University

  – Awarded under Dynamic Urbanism for co-authored paper on resilience in architecture (Scopus publication in progress).

- **CEED (Common Entrance Exam for Design)** *2023*
  All India Rank

  – Secured an AIR 56 in the Open Category.
